Coding Journey Report

Data visualizations and summaries for exploring a coding journey.

Author: Aayush Ojha

Task name: Hello world

Typing Time: 15 seconds

Total time spent: 27 seconds

Average typing speed: 194 character(s)/minute

Number of lines: 7

Number of characters: 153

Number of time points: 4 (Logged at 5 seconds)

Interactive version of this report is available here.

Final Code

If the code contains more than one file, they are concatenated and shown.

```
==+==
FILE: Main.cpp
==+==

/* Sample C++ code */
#include <iostream>
using namespace std;

int main(void)
{
    cout << "Hello, World!"<< endl ;

}
```

Final Execution Output

Output of the most recent code execution.

```
Hello, World!
```

Most Common Error

The most common error that occured during the coding process; "null" (if any) indicates no errors.

There were no errors !
Effort Summary

Active durations while working on the task, shown as green bars.

Active:
27 seconds

Text Added or Removed Over Time

Green and red circles show text add and removed; size of the circle shows change in the number of characters.

Edited Line Locations (inactive durations not shown)

Each edited line block is assigned a color; highlighted bars show the line(s) edited at that time point.
